TAMPONY

Pads - Tampon - Tampón

Edycja 01.2025

UWAGA

Informacje zawarte w tym katalogu danych nie powinny być traktowane jako wiążące, ponieważ warunki użytkowania produktów są poza naszą kontrolą. Właściwości podane w tym katalogu mogą ulec zmianie bez uprzedzenia. Powielanie tej publikacji w jakiegokolwiek formie jest zabronione bez pisemnej zgody Comec Polska Sp. z o.o.

ADVERTENCIAS

Las informaciones y datos contenidos en el presente catálogo son puramente indicativos, ya que las condiciones de uso de los productos están fuera de nuestro control. El productor se reserva el derecho de aportar, en cualquier momento las modificaciones que considere necesarias. Se prohíbe la reproducción total o parcial del presente catálogo sin previa autorización escrita de Comec Italia srl.

WARNING

The information contained in this data sheet should not be taken as binding, since the employment conditions of the products are out of our control.

The features indicated in this catalogue may be changed without notice.

The reproduction of this data sheet in any form is forbidden without the written authorization of COMEC Italia srl.

AVERTISSEMENTS

Les informations et les données contenues dans le présent catalogue sont purement indicatives étant donné que les conditions d'emploi sont hors de notre contrôle.

Le producteur se réserve le droit d'apporter à tout moment les modifications qu'il considérera nécessaires.

La reproduction totale ou partielle du présent catalogue, sans l'autorisation écrite de Comec Italia srl, est interdite.

WPROWADZENIE

Tampon jest najważniejszym elementem procesu tampodruku, jego prawidłowy dobór jest niezbędny, aby uzyskać dobre rezultaty druku, jak również żeby mógł służyć jak najdłużej. Comec Polska Sp. z o.o. opublikowała ten katalog żeby pokazać szeroki wachlarz dostępnych wzorów tamponów, aby ułatwić Klientowi wybór. Na życzenie wykonujemy również tampony specjalne i antystatyczne.

CHARAKTERYSTYKA I WYBÓR TAMPONÓW

Tampony są wykonywane ze specjalnej gumy silikonowej, która charakteryzuje się:

- doskonałą przyczepnością i odrywaniem farby; wysoką jakością nadruków
- odpornością na działanie rozcieńczalników i farb; długą żywotnością
- twardością i stabilnością formy; możliwość używania wielokrotnego.
- łatwością czyszczenia; szybkim utrzymaniem

Wybór tamponu zależy od wielu elementów:

- 1 Kształtu drukowanego przedmiotu
- 2 Wielkość obszaru zadruku
- 3 Typu drukowanej powierzchni: *gładka, porowata itp.*
- 4 Liczby kolorów, które są drukowane

Te elementy determinują twardość tamponu wyrażoną w skali Shore oraz kształt

Ważne:

Dla porowatych powierzchni zaleca się stosowanie twardych tamponów o wartości 12–16 Shore (niebieskie–czerwone).

Rozmiar tamponu zależy od powierzchni druku.

Należy używać tamponów, których wymiary są co najmniej o 20% większe od powierzchni zadruku.

Dane tamponów przedstawione w tym katalogu odnoszą się do maksymalnej możliwej powierzchni nadruku uwzględniając 20% zapasu.

INTRODUCTION

The pad is the most important element in the pad printing process whose correct choice is essential to obtain good final printing results as well as a long working life of the pad. COMEC Polska sp. z o.o. has issued this catalogue to show the most relevant types of pads in order to make the custo-mer's choice easier.

Custom-pad are supplied on request, as well as antistatic silicone pads (RED-ONE).

CHARACTERISTICS AND PAD CHOICE

The pad is made with special silicone rubber with the following characteristics:

- excellent absorption and detachment of the ink; perfect transposal of the image to be printed
- tear strength and resistance to solvents and inks; pad long life
- hardness and form stability; possibility of being used several times
- easy to be cleaned; quick maintenance.

The choice of the pad depends on many elements, i.e.:

- 1 Shape of the printing surface: flat or uneven
- 2 Dimension of the printing surface: printing area
- 3 Type of printing surface: smooth, rough, etc.
- 4 Number of the colours to be printed.

These elements determine the pad hardness expressed in Shore (see table A and B) and its shape.

Important:

For rough surfaces it is recommended to use hard pads of 12-16 Shore hardness (Blue-Red).

The size of the pad depends on the printing surface.

It is necessary to use pads whose dimensions are at least 20% greater than the printing area.

The data of the pads listed in this catalogue refer to the max. printing possibility.

Tab.A

POWIERZCHNIA-SURFACE		1 KOLOR - 1COLOR	4 KOLORY - 4 COLORS
PŁASKA-FLAT 	od 7cm ² - up to 7cm ² od 7 do 50cm ² - from 7 to powyżej 50cm ² - over 50cm ²	Niebieski/czerwony Niebieski/czerwony Niebieski	Niebieski/czerwony Niebieski - blue Niebieski - blue
